

Briarwood

building family heirlooms one bedroom at a time.

Briarwood

building family heirlooms one bedroom at a time.

As woodworkers and craftsman we look to the symbol of the American barn for its value as a sustainable product. There is a lot one can learn when looking at these iconic structures. Assembled and erected from solid wood beams using mortise and tenon joinery, these barns remain a symbol of our heritage.

The same can be said about every bedroom collection we make. Our collections are constructed using superior methods and only the highest quality materials. We use solid wood, not pressed wood, mortise and tenon, not butt joints, and like the classic American barn the lifespan of our furniture is built to be measured in decades and centuries.

We don't just build bedrooms, we build family heirlooms.

You can select any of our bed designs and then decide if you would prefer one of the four options we offer. Selections depend on your individual storage needs, and overall design preference. Choose from Twin, Full, Queen and King sizes. Then choose a standard or low footboard. Or take advantage of our Rail or Footboard Drawers, for extra storage. Briarwood's Rail and Footboard Drawers are finished inside and out and are constructed with the same quality and attention to detail as the rest of our collections.

The focal point of every Briarwood bedroom collection is the bed. The rest of the collection is designed to accent the bed design and provide additional storage and functionality. Each of our beds is designed to accommodate your individual taste and needs. Each collection offers a bed in Twin, Full, Queen and King sizes. Each bed can also be customized to meet your storage or design needs. Select our standard bed, with a standard or low footboard, or our Rail or Footboard Drawers, for extra storage.

With each bed design you get to select...

Grand Haven Mission

One of the most majestic mission beds on the market today, this bed has been a best seller for many years. The mission design dates back to the pre 1900s, and although its popularity ebbs and flows, this collection will never go out of style. Details in the design of the feet and hardware add to this collections appeal.

Classic Mission

The name says it all. This bed is smaller in stature than our Grand Haven Mission. Its timeless design is lasting and proven, and looks right at home with the entire Mission Collection.

Koehler Creek

The distinct high headboard and rustic details of the Koehler Creek bed catch your eye in a way that is nearly irresistible.

The Koehler Creek's heavy rails look great with Footboard Drawers. Post frame construction and just the right hardware make the entire collection an instant classic.

Loretta

This Loretta panel bed puts a new twist on a classic look. The Loretta's corner posts hint of a classic mission design, while the panels in the head and footboard reflect the stylings of heavier more rustic designs. This bed looks right at home amongst all of the elements of our Koehler Creek Collection.

MarshField Shaker

The clean lines of the Marshfield Shaker bed are clearly inspired by classic American Shaker designs.

This collection is another timeless classic from Briarwood.

Pencil Post

The timeless Shaker styling of our Pencil Post bed has been a part of fine interior styling for centuries.

Available with or without a canopy top, this bed will continue to be in style for centuries to come.

This bed is right at home when combined with our complete Marshfield Collection.

Oxford

The traditional stylings of the Oxford bed feature an arched head and footboard design. Shown here in Cherry with our popular rail drawers, this bed is a show stopper. The Oxford Collection features expressive drawer fronts and reflects the unique arched shape of the head and footboard in the base of each piece.

Latrobe Springs

This design features lots of storage options. If storage in the headboard is not enough, you might consider the optional side rail drawers. The detail in the footboard take the Latrobe Springs bed beyond functional, making it perfect for any bedroom in your home.

Sometimes it's the simple things that count the most. That can be said about our very functional Rail Drawers. Our Rail Drawers are available on all of our beds. Finished inside and out, they provide that additional storage that so many of us need.

MAYFIELD

With storage in the headboard and footboard, the Mayfield is an extremely functional choice. Its low profile, straight lines, and decorative rail create a very contemporary, yet casual look. Also unique to the Mayfield Collection is a oversized bedside chest in place of the more traditional nightstand.

Hide-away storage compartments built into the headboard are almost undetectable and are perfect for valuables and personal items.

Newberry

The classic bookcase bed never goes out of style. Shown here with our optional rail drawers, this bed offers lots of storage.

The Newberry collection features post frame construction and all the quality you expect from a Briarwood collection.

Newberry Panel Bed

This classic stylings of this panel bed look great as a standalone element, or when combined with the complete Newberry Collection.

WINGATE

Distinctive is the word that comes to mind when you try to describe our Wingate Collection. Ornate dentil work on every piece and unique waistline under the top row of drawers is just the beginning. Right down to the bun feet, no detail was overlooked. Shown here stained in gray, this newest offering from Briarwood is simply exquisite.

Roxanne

Smaller in stature than some of our other beds, the Roxanne is ideal for a guest room. Intricate post detail, grooves, moldings, and panels create its appealing look. These same features carry over to the complete collection, creating what feels like a very feminine bedroom set.

Bayshore

Old fashioned cannonball posts turned from 4" lumber combine with the headboard to create a casual combination of curves and straight edges. Bold enough for your master suite, yet refined enough to be right at home in a secondary or guest room. This bed can easily be paired with the complete Roxanne Collection.

Santa Rosa

A classic American design, the Santa Rosa features tall beaded posts and easy curves in the headboard. The high blanket rail on the footboard allows your bedding to be properly displayed. This bed is sure to capture your eye, and can also be paired with the complete Roxanne Collection.

LAUREL HILL

High class has always been associated with raised panel beds. Our Laurel Hill bed is no exception. Medium in stature, this bed is shown with our optional Footboard Drawers. The optional storage and high class design are all available to you at a very attractive price point.

Woodbury

Massive. Impressive. Two words to best describe the Woodbury's large octagon posts and heavy moldings. Cap pieces on both the head and footboards all combine to create a design that demands your attention. Subtle accents, like the gentle curve on the outer panels and turned beads on the posts, add to this bed's infinite style.

Olympia

Tall and stately, the extreme luxury and design of this bed demands attention wherever it is placed. From the curves of its head and footboard, to its multiple moldings, turned posts, raised panels and fluting, this bed exemplifies what Briarwood is all about.

Centura

Dating back to the turn of the century, the Centura's tall headboard has always made a statement. Inserts in the head and footboards allow a tremendous amount of wood to show. If you like wood beds, the Centura may be just the bed for your master suite.

Millcreek

The rustic look of this bed is evident in its vertical distressed planking in the angled panel. Its low footboard, with a planking cross piece, finish out the design, and prove that not everything has to be straight and smooth to be beautiful.

NewBerry Panel Bed

This classic styling of this panel bed looks great as a standalone element or when combined with the complete Newberry Collection.

Camp Teton Bunk

The Camp Teton Bunk bed is a slightly simpler and lighter design when compared to some of our other bunks. However, this design has proven to be highly adaptable. Excellent for a kid's room and proven in the hospitality industry.

Classic Mission Twin over Twin with Drawers

Our highly versatile Drawer Unit fits under all of our beds including our bunk beds. Finished to match, it can provide that additional storage that so many of us need.

Twin over Full Bunk

Twin over Twin Bunk

Classic Mission Bunk

Bunk beds are a great solution when you don't have a lot of extra space. Not to mention they are a lot of fun for the kids. Extending the Classic Mission style into bunk beds was only natural.

Cape Cod Bunk

This is the ultimate bunk bed. Built, maybe even overbuilt, to handle years of hard use. This bed gets its style from extra-thick cross pieces and grooved solid wood panels. Accented with detailed turnings on the posts, the Cape Cod makes a statement in any child's room.

Colonial Bunk

Where casual and traditional meet, you'll find the square posts, turned spindles and slightly arched top and bottom of our Colonial Bunk bed.

Mission Day Bed

Continuing in the Classic Mission line, this day bed offers all the style and versatility you need from a day bed. A matching trundle is also available.

Lyndale Day Bed

The Lyndale Day Bed represents lasting beauty and great versatility. Whether you are sitting, sleeping, or just plain relaxing our day bed is designed for ultimate comfort and style. Sleep overs are not a problem either. Simply add a matching trundle that neatly tucks away under your day bed and pull it out as needed.

Both day beds and trundles use a twin size mattress.

Laurel Hill Bed Seat

Lyndale Bed Seat

Bayshore Bed Seat

Bed Seats

Complete your bedroom with a bed seat from Briarwood. These high quality seats provide a comfortable place for you to sit as you prepare to start your day, or get into bed. We offer bed seats for many of our most popular designs.
